Colleges of the Fenway

Emergency Notification System

## About the RAVE Opt-in Text Feature

What is RAVE?

RAVE is used to notify the COF institutions of emergencies that occur on or around campuses. The systems are also utilized to inform the community of events such as a snow storm campus closures. Emergency alerts come via phone call and/or text.
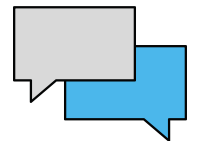

Who gets RAVE notifications?

All COF students, staff and faculty are automatically enrolled in the system. But others (visitors, parents, etc.) have the ability to join the notification system by using the RAVE opt-in feature.

How do I enroll?

Simply text the campus specific "keyword" to their corresponding phone number and you will be added to their Emergency Notification System for a period of time. You will receive instructions to renew when your membership is about to expire.

What is my keyword and phone number?
