College.

Not just for students.

College campuses are custom made for…working professionals. We employ IT experts, HR specialists, marketing & PR wizards, and computer programmers, to name just a few. The Colleges of the Fenway are not just here for students. We serve up a diverse workplace to all kinds of professionals who want a lot from their work – good salaries, great benefits, easy access to city culture, and, in some cases, free tuition.

Don't you think it's time to come back to college?

Building a diverse workplace is not just an ideal, it's a commitment. Applicants from all backgrounds are encouraged to apply. EOE.
